Thank you for purchase of Vestax original over Supply Unit (adapter). Use only recommended original Vestax Power Supplies. Use of others may damage your Vestax unit. Before using read this manual. If you are unsure, contact technical support. Do not use the adapter if you find any damage to the power cables. These are general instructions. You will find a special manual with technical parameters for each Vestax Power Source Unit in the package.

## VESTAX EXTERNAL POWER SUPPLY

### General Safety Summary

Review the following safety precautions to avoid injury and prevent damage to this product or any products connected to it.

Only qualified personnel should perform service procedures.

#### Injury Precautions

##### Use Proper Power Cord

To avoid fire hazard, use only the power cord specified for this product.

##### Avoid Electric Overload

To avoid electric shock or fire hazard, do not apply a voltage to a terminal that is outside the range specified for that terminal.

##### Ground the Product

This product is grounded through the grounding conductor of the power cord. To avoid electric shock, the grounding conductor must be connected to earth ground. Before making connections to the input or output terminals of the product, ensure that the product is properly grounded.

##### Do Not Operate Without Covers

To avoid electric shock or fire hazard, do not operate this product with covers or panels removed.

### Safety Terms and Symbols

DANGER indicates an injury hazard immediately accessible as you read the marking.

WARNING indicates an injury hazard not immediately accessible as you read the marking.

CAUTION indicates a hazard to property including the product.

#### Do Not Operate in Wet/Damp Conditions

To avoid electric shock, do not operate this product in wet or damp conditions. Warning: this power supply only for internal use!

#### Do Not Operate in Explosive Atmosphere

To avoid injury or fire hazard, do not operate this product in an explosive atmosphere.

#### Avoid Exposed Circuitry

To avoid injury, remove jewelry such as rings, watches, and other metallic objects. Do not touch exposed connections and components when power is present.

### Product Damage Precautions

#### Use Proper Power Source

Do not operate this product from a power source that applies more than the voltage specified.

#### Use Proper Voltage Setting

Before applying power, ensure that the line selector is in the proper position for the power source being used.

#### Provide Proper Ventilation

To prevent product overheating, provide proper ventilation.

#### Do Not Operate With Suspected Failures

If you suspect there is damage to this product, have it inspected by qualified service personnel.

### IMPORTANT NOTE

Observe the correct handling of the power connector.

When connecting or disconnecting the power supply to the Vestax device hold the power connector by the body.

Never unplug the power supply by pulling on the connector!

### GENERAL CONDITIONS OF USE

This power supply adapter is intended for use under these conditions:

Operating environment	USE INDOOR ONLY
Ambient temperature:	+5°C ~ +38°C
Ambient humidity:	8% ~ 90% RH
